

Business nbn® Internet

Critical Information Summary

Service and Price Information

This plan is an Unlimited business nbn® Internet service. Vocus is responsible for supplying these services to our customers, and we have no other affiliation or relationship with our wholesalers outside of our wholesale agreements. In the event of a power outage, your nbn® services will not work unless you maintain a backup battery.

Pricing

	Basic Speed	Standard Speed
Pre-paid Monthly Access Fee	\$85	\$90
Min Cost – 24 mth term	\$2,040	\$2,160
Data Allowance	Unlimited	
nbn® Technology	FTTB / FTTC / FTTN	
nbn® Speed	12/1 Mbps	25/5 Mbps
Priority Network Support	See pricing table	
Modem Options	<ul style="list-style-type: none"> Use your own Modem (no charge) Use the Business Modem (included with 4G Backup at no cost) 	
Wi-Fi Booster Options (Max of 3 per modem)	<ul style="list-style-type: none"> Use your own Wi-Fi Booster (no charge) Use the Business Wi-Fi Booster (\$110 upfront or \$5 a month over 24 months) 	

Minimum Contract Term:

24 Month

Service Exit Costs will apply if you cancel a service within the Minimum Contract Term of 24 months. These costs are calculated as \$90 plus the total of any remaining monthly hardware repayments for the cancelled service. If you choose to use the Business Modem included with the service, you will incur a charge of \$10 for each remaining month on the contract, up to a maximum of \$240. If you are purchasing additional hardware such as a Business Wi-Fi Booster on an MRO, cancelling within the repayment period will trigger early repayment of the hardware calculated as the MRO x months remaining in the hardware repayment contract.

Other Information

Bundling Arrangements

Not applicable.

Plan Changes

You can add and remove the speed upgrade if your speed requirements change at any time throughout your contract.

Usage Information

For information about current usage levels, log in to “My Account” at takecommand.com.au

Payment Options

Payment by Direct Debit from a bank account does not incur additional fees or charges. Additional charges apply for other payment methods. For details, see your invoice and our Schedule of Fees & Charges on our website vocus.com.au/help-and-support/legal-contracts or contact us at 132 777.

Standard Installation Requirements

You are required to install any modem or Wi-Fi Booster that you purchased with your Vocus service. You are also responsible for any associated cabling, network configuration & any routers and/or switches within your network to allow the services to work. For more information, please speak to your Vocus representative or call Customer Service on 132 777.

If you've selected to purchase the Business Modem, it comes ready for self-installation and will automatically configure when it's plugged in for the first time.

Standard installs are completed without charge to you. If a new nbn® connection point is required, charges apply, and depending on existing infrastructure, these charges start from \$299. If you are transferring an existing nbn® service, it will affect your Internet service and may also affect voice or other services associated with it. There may be downtime whilst the transfer is being completed, and it may result in early termination fees and/or plan charges from your current provider, which you are responsible for. Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. If you're in a newly constructed building and not already connected to the nbn®, nbn® may charge us a \$300 New Development Charge, which we will pass on to you.

Hardware

Hardware options are included in the table above. If you are purchasing additional hardware, such as a Business Wi-Fi Booster, on 24 monthly payments, cancelling within the repayment period will trigger early repayment of the hardware. This is calculated as the MRO x months remaining in the hardware repayment contract. The Business Modem is pre-configured for self-installation and includes instant activation with 4G Backup. 4G Backup provides an alternative Internet connection (up to 12/1 Mbps) and Internet telephony calls when your fixed Internet service has failed or is pending activation (not available in all areas). For more information about 4G Backup, visit: www.vocus.com.au/business/commander-customer-hub/internet-support

Please note that support is only available for Vocus provided modems. It's your responsibility to ensure your BYO modem is compatible with the nbn® service you have selected, or you may not be able to achieve plan speeds. A 240-volt power supply is required.

nbn® Speed

Basic and Standard refer to the wholesale speed tiers provided to us by the nbn®. These speed tiers have a theoretical download maximum attainable speed of 12 and 25 Mbps, respectively, outside of peak hours. The actual speeds that you experience will be slower than the theoretical maximum for your technology type and speed tier due to factors such as the quality and layout of copper wiring forming part of your connection, distance from the exchange, congestion on the network, weather, rain and electrical interference. For more information about these speed tiers, please visit our website: www.vocus.com.au/business/commander-customer-hub/internet-support

If your service is connected to the nbn® via FTTC, FTTB or FTTN (Fibre to the Curb, Building or Node, respectively), and your maximum attainable speed falls below the nbn12 or nbn25 speed tier level you've purchased, we will contact you to determine if you would like to stay on the plan you've chosen or offer you other alternatives. Your maximum attainable speed can only be determined once your service is activated on the nbn®.

Service Availability

FTTP, FTTB, FTTN, FTTC (Fibre to The Premises, Building, Node or Curb, respectively) or HFC (Hybrid Fibre Coaxial) are available in nbn-enabled areas. nbn® availability can be checked via

www.nbnco.com.au/connect-home-or-business/check-your-address

Priority Network Support (PNS)

If Vocus and nbn® are unable to restore a fault within the hours allocated, you will be credited your plan fee for Priority Network Support for that month.

Priority Network Support Options	Hours Allocated	Monthly Access Fee (Inc. GST)
PNS 12 (90 Days)	12	\$180 (Once off)
PNS 12	12	\$20
PNS 8	8	\$30

Moving Back To Copper

If you take up this service, you will not be able to move back to a copper service. This service may not be appropriate if you require an uninterrupted phone service with access to 000 emergency services. Priority Assistance is not available on this service.

Contact Details

We are dedicated to excellence in servicing our customers and have lots of ways for you to keep in touch:

- Online via takecommand.com.au
- Email us at smb.customerservice@vocus.com.au
- Call us on 132 777 (Check our website for opening hours).

Complaint Handling

If, for some reason, you are not satisfied with the service we provide, please let us know so we can do our best to fix it. If you feel that we were unable to resolve your issue to your satisfaction, please call 1300 136 093.

If you are still not satisfied with the steps taken by Vocus to resolve your issue, you can seek assistance from the Telecommunications Industry Ombudsman (TIO).

The TIO will only investigate complaints if you have already attempted to resolve your issue with Vocus and is an option of last resort. Contact the TIO by visiting www.tio.com.au/ or by calling 1800 062 058.

Full Terms

Vocus Small Business Standard Terms and Conditions & Acceptable Use Policy set out the terms & conditions on which we provide our products & services. See www.vocus.com.au/help-and-support/legal-contracts for full terms.

Online Safety

The eSafety Commissioner provides a range of educational material about staying safe online: www.esafety.gov.au/

A range of certified Family Friendly Filters can be found on the Communications Alliance website: www.commsalliance.com.au/Activities/ispi/fff

Thank You for Choosing Vocus for Your Business Communications.
