

CRITICAL INFORMATION SUMMARY

Business Broadband nbn™ Plan

This Critical Information Summary contains some important information for your plan, including how much you will pay and what is included. This summary does not include promotions or discounts that may apply from time to time. PIPE Networks Business Broadband nbn™ is only available to approved customers with an Australian Business Number (ABN) or Australian Company Number (ACN).

PIPE Networks Business Broadband nbn™ is a fixed broadband data-only service ("nbn Service") that provides you with internet access via the National Broadband Network ("nbn Network") as supplied to us by NBN Co Limited ("NBN"). Our 4G Backup nbn™ plan requires the PIPE Networks supplied Netcomm Wireless NL20MESH Modem.

		Business nbn™ Essential +		Business nbn™ Fast +	Business nbn™ Superfast +	Business nbn™ Profast +	Business nbn™ Ultrafast +
Price per month		\$85		\$95	\$209	\$319	\$429
Total min cost		\$277		\$287	\$401	\$511	\$621
		1 month plan fees + total cost of modem					
Included monthly data		Unlimited					
Static IP		Included					
Minimum term		1 month					
Maximum Connection Speed	nbn® Speed Tiers	Nbn50	FW Plus	Nbn100	Nbn250	Nbn500	Nbn1000
	Download	↓ 50Mbps	↓ 75Mbps	↓ 91Mbps	↓ 210Mbps	↓ 210Mbps	↓ 450Mbps
	Upload	↑ 17Mbps	↑ 10Mbps	↑ 34Mbps	↑ 85Mbps	↑ 170Mbps	↑ 340Mbps
Availability		The nbn Service is not available in all areas or to all premises. Availability is subject to a service qualification check which we will perform when you request to sign-up. To find out if the nbn Service is available in your area visit the nbn™ rollout map https://www.nbnco.com.au/learn/rollout-map . The Business nbn™ Superfast + plan, the Business nbn™ Profast + plan, and the Business nbn™ Ultrafast + plan are only available in NBN FTTP areas and selected NBN HFC areas.					
Early Exit Fees		There are no Early Exit Fees on this plan. However, if you choose to cancel, 100% of any remaining device instalments will be applied to your next bill. The Modem is \$8 per month ('Undiscounted Price') or \$0 per month ('Discounted Price') when you stay connected for 24 months ('Device Period'). This Discounted Price will appear as a credit on your monthly bill. If you choose to cancel your plan before the end of the Device Period you will need to pay the full Undiscounted Price x months remaining on Device Period. For example, if you leave at month 18 you would pay \$8 x 6 (number of remaining months), at a total of \$48. This remaining Modem cost will be applied as a lump sum on your final bill.					
Order withdrawal charges		If you withdraw or cancel your service(s) before we have completed provisioning these, you will be required to pay all costs incurred or committed by us up to and including the date of withdrawal or cancellation.

CRITICAL INFORMATION SUMMARY

Business Broadband nbn™ Plan

Information about the service

Equipment required

You need a compatible modem in order to use this Plan. It is a requirement of signing up to this Plan that you purchase the NetComm Wireless NL20MESH modem supplied by PIPE Networks for every Business Broadband nbn™ plan. The total cost of the Modem is \$192. This is explained in further detail above under Early Exit Fees. Please note that by signing up to this Plan your existing home phone line service will be terminated. When you connect to PIPE Networks nbn™ certain equipment or services at your premises may be impacted and no longer operate. These include medical devices, alarms, EFTPOS machines, lift emergency phones and some email or fax services. Please contact the equipment manufacturer or service provider if you are unsure. PIPE Networks does not offer Priority Assistance.

nbn™ charges

New Development fee: This \$300 will be charged to your bill if NBN has to activate a connection for the first time at a premises it classifies as a 'new development'. Other fees such as missed appointment fee, cancelled appointment fee, subsequent installation fee and no fault found fee may apply to you. We may also pass on any administrative costs that PIPE Networks incur in providing you with assistance or arranging an appointment with NBN. Please see your Plan Details for more information.

Service availability

The nbn Service is not available in all areas or to all premises. Availability is subject to a service qualification check which we will perform when you request to sign-up. The technology used to deliver the nbn Service will depend on the connection between your premises and the nbn Network which includes: (1) Fibre to the Premises ('FTTP'); (2) Fibre to the Node ('FTTN'); (3) Fibre to the Building ('FTTB'); (4) Hybrid Fibre Coaxial ('HFC'); (5) Fibre to the Curb ('FTTC'); and (6) Fixed Wireless. Your technology type will be explained when you sign-up.

Installation & setup

There is no charge for standard PIPE Networks nbn™ installations. PIPE Networks does not offer nonstandard or professional installations. If advised by NBN that additional works such as trenching is required, you will need to arrange for and pay for any associated works directly via a third party. The new development charge of \$300 will apply to you if NBN has to activate a connection for the first time at a premises that is in a newly developed area or building. If applicable, we will apply that charge to your first bill following activation of the nbn Service at your premises. You must be over the age of 18 to have PIPE Networks nbn™ installed. If you are the owner of the property you must provide consent for NBN to install the nbn Service. If you are not the owner of the property or if you live in a strata property you must obtain owner consent or strata approval for installation.

Plan speeds

Speeds on these plans are variable and you will experience slower speeds than the max connection speed available, particularly during peak times (9am-5pm for business customers). Typical Business Hours Upload speed and speeds for Fixed Wireless Plans (being FW Plus) are estimated by reference to the nbn wholesale speeds provided to PIPE Networks and are to be confirmed. We are still calculating Typical Business Speeds with the new modem and will update the information once sufficient data is available. Actual speeds for FTTB/N/C services to be confirmed. Actual speeds will vary and can be confirmed once your nbn Service is activated. The performance and speed of your service depends on a number of factors such as plan, location, number of devices connected, modem type quality and positioning, Wi-Fi performance, in-building wiring, content accessed, the NBN technology used to deliver your NBN Service, how much capacity PIPE Networks has purchased from NBN, our network and internet traffic demand. *Estimated Typical Business Hour upload and download speeds are estimated by reference to the previous nbn® wholesale speeds provided to PIPE Networks. Following the migration of these services to the Vocus network, the speeds estimated above will be updated once measurements are obtained.

Plan & speed changes

You can change your Business Broadband nbn™ Plan and Speeds at any time in the Frontier Customer Portal or by contacting PIPE Networks or your Account Manager. When changing your nbn™ speed, you can upgrade or downgrade your existing plan and the amount will be pro-rated on your next bill based on the number of days used for each plan. The Plan Speeds available to your premise depends on the technology used to deliver the NBN Service. See service availability above.

CRITICAL INFORMATION SUMMARY

Business Broadband nbn™ Plan

Maximum attainable speeds

If you're connecting to the nbn™ using FTTB/N/C technologies, we'll check your max attainable line speed once we receive this information from NBN after activation. If the max line speed at your address doesn't support the speed tier of the plan you've chosen, we'll let you know, and give you the option to a) remain on your current plan with no refund; b) move to a lower speed plan of your choice and receive a refund to reflect the difference between the plan you have paid for and the closest plan your max attainable line speed can support (if you are already on the lowest speed plan you do not have this option). No plan change fee will apply if you choose this option; or c) cancel your plan at no cost and receive a refund of the price difference between the plan you have paid for and the closest plan your max attainable line speed can support (if you are already on the lowest speed plan, you may exit without cost, and you will receive a full refund of fees paid to date, excluding device payments). In some circumstances, we may automatically change your plan to a lower speed tier that's more suitable to you, and provide you with a proportionate refund as well (however, we will let you know about this in advance). We will also arrange for you to return the modem we have supplied but a failure to return the modem will result in device charges being payable.

4G back-up

This is a complimentary data-only service which provides internet access via our Mobile Service in a Vodafone Coverage Area during confirmed local NBN faults or when the nbn™ is being activated. It is available until the fault is resolved or for a period of 30 consecutive days (whichever occurs first). Speeds for this service are limited to a maximum of 20Mbps (download) and 2Mbps (upload). This service is only available when using a PIPE Networks supplied NetComm Wireless NL20MESH modem with a pre-installed SIM on our network.

Other information

Frontier Customer Portal	You can keep track of your call and data usage and make changes to your account through the Frontier Customer Portal or by contacting PIPE Networks Customer Care. You can access Frontier by heading to www.frontier.tpgtelecom.com.au through a web browser.
We're here to help	Please contact PIPE Networks Customer Care or your Account Manager. If, after speaking with us, you aren't happy with the outcome and you are a small business you may also contact the Telecommunications Industry Ombudsman on 1800 062 058, or head to tio.com.au .
Bill	You will receive your bill free via email, and you can access it at any time through Frontier Customer Portal. For customers on shared plans, only the account holder will receive a bill. This bill will show the total for all the shared plans, and the individual plan summary.
Coverage	Nbn™ rollout has commenced across Australia and here at PIPE Networks, we've got you covered. To find out which nbn Service is available at your location, head to https://www.nbnco.com.au/learn/rollout-map. The quality and availability of some services and speeds you reach will continually vary depending on many factors such as your location, your device capabilities, network congestion and network coverage. For more info on 4G backup coverage, head to https://www.vodafone.com.au/coverage.

To view the full T&Cs for this plan, head to www.vocus.com.au/help-and-support/legal-contracts/pipe. PIPE Networks [Legal contracts](#) | Vocus applies to any unreasonable use of plan inclusions. Pipe Networks Pty Limited is now part of the Vocus Group.
