Unused allowances will expire each month at the end of your billing cycle. All inclusions are for use in Australia. Prices include GST unless otherwise specified. For details of all rates please see our website

Information about the service

Offers and promotions.

Special promotional offers relating to your plan (if any) are not shown in this Critical Information Summary. To check your plan details including any applicable offers, please contact PIPE Networks Customer Care or visit the Customer Portal.

Bundling

You don't have to bundle this service.

Phone

Bring your own phone or speak to us to find out which phones you can purchase from us. Options to purchase a phone outright or to purchase phones on a Mobile Payment Plan over 12, 24 or 36 months are only available when you connect to a SIM Only plan on a month-to-month term.

Data usage

Your data inclusions may only be used in Australia on the Vodafone network or when roaming overseas in Eligible Countries on the \$5 Roaming Service. When you exhaust your Max Speed Data Allowance (if any) in Australia, your data will be slowed to up to 2Mbps. You will not be charged additional fees when you exceed your Max Speed Data Allowance unless you are using \$5 Roaming in Eligible Countries.

Tethering

Tethering is permitted to your own devices only (such as your laptop), but must not be used in a modem or as a substitute for an internet service. For more information, check out 'What you can do with 2Mbps' on our website.

Data and international minutes sharing

Data inclusions and international minute inclusions (other than any unlimited max speed data or IDD inclusions) for all Business First Voice Plans that you purchase under the same account will be pooled and used by each user on a first-in-first-serve basis. If you have also purchased certain Business First Mobile Broadband Plans on same billing account, the data inclusions under those plans will also be added to this data pool. Data and international minute sharing is only available in Australia or when on \$5 Roaming in Eligible Countries.

Data Add-ons and Data Boosters

You can add Business First Data Add-ons to your plan, which will bill monthly and remain active until cancelled. You can purchase multiple Add-ons and Boosters. The data will be added to the pool of data available for all Business First services on the specified billing account. You may also purchase one-off Data Boosters as offered by PIPE Networks from time to time, which expire at the end of the relevant Data Booster period. All unused data inclusions will be forfeited at the end of each month. All Add-ons and Boosters: pricing may change from time to time – see our website for current pricing.

Pricing Add-ons and Booster	Allowance	Price
Business First Data Add-ons	3GB	\$15
(recurring)	15G	\$30
	50GB	\$45
Business First IDD Add-ons	240mins Zone 1	\$5
(recurring)	60mins Zone 2	\$10
Business First Data Boosters	3GB	\$15
(one-off purchase)	15GB	\$30
	50GB	\$45

International (IDD) minutes

The international minutes are only available for use within Australia and in \$5 Roaming Eligible Countries, and can only be used to make standard international voice calls to the selected countries listed at www.tpgtelecom.com.au/business-solutions/mobility. You can also purchase Business First IDD Add-ons to increase the international minute inclusion to share across plans on your account, which will be billed monthly and remain active until cancelled.

Other information

Usage	You can keep track of your call and data usage and make changes to your account through the Customer Portal or by contacting PIPE Networks Customer Care.
Roaming	\$5 Roaming is pre-activated on Business First Voice Plans. This will allow you to use your plan inclusions for an extra \$5 per day, per device, in Eligible Countries, as listed at vodafone.com.au/roaming. While using \$5 Roaming, if you use more than your included data allowance you'll automatically receive extra data in 1GB increments, each charged at \$5 (equivalent to \$0.005/MB). If you use your service in a country which is not an Eligible Country, or if you have opted out of \$5 Roaming, you will be charged our Pay-As-You-Go Rates. All roaming costs are in addition to your minimum monthly spend. You can deactivate \$5 Roaming (or Roaming altogether) at any time, or check your roaming usage, via the Customer Portal.
Premium Services	As a default, Premium Services (e.g. calling to enter a competition) are enabled on your account, and will incur additional costs on top of your monthly plan charge. Before using a Premium Service, always check the costs associated with this service. To opt-out or make a complaint, please contact PIPE Networks Customer Care. There is no charge to opt-out.
Bill	You will receive your bill free via email, and you can access it at any time through the Customer Portal.
	For customers on shared plans, only the account holder will receive a bill. This bill will show the total for all the shared plans, and details individual plans.
Coverage	The quality and availability of some services and the speeds you reach will continually vary depending on many factors such as your location, your device capabilities, network congestion, network coverage, environmental factors, if you are roaming or if you are a heavy data user. For more info, head to tpgtelecom.com.au/business-solutions/mobility
Broadband Education Package	To better understand broadband technologies and the factors that can influence the performance of your broadband service, you can visit the Communications Alliance Broadband Education Package website at www.commsalliance.com.au/BEP.
We're here to help	Please contact PIPE Networks Customer Care or your Account Manager. If, after speaking with us, you aren't happy with the outcome and you are a small business you may also contact the Telecommunications Industry Ombudsman on 1800 062 058, or head to tio.com.au.

To view the full terms and conditions for this plan, please see the Business First Product Terms and the PIPE Networks Terms and Conditions on www.vocus.com.au/help-and-support/legal-contracts/pipe. PIPE Networks Legal-contracts/pipe. PIP
